**Joseph Barr, OD**

Dr. Barr is an Emeritus Professor at The Ohio State University College of Optometry. From July 2007 to May 2014 Dr. Barr was with Bausch + Lomb, most recently as vice president, medical affairs, Pharmaceuticals & Vision Care. Prior to that, he was with Ohio State for 24 years in various capacities including associate dean for clinical services and professional programs, and chief of the Contact Lens Clinical Service. During his tenure with Ohio State, Dr. Barr also spent two decades as editor of the professional journal Contact Lens Spectrum. He was founding editor of the first electronic newsletter for eye care professionals, Contact Lenses Today. Dr. Barr also spent three years as manager of clinical and materials research for Dow Corning Ophthalmics

**Katherine Bickle, OD**

Dr. Bickle is a clinical instructor and PhD student at The Ohio State University College of Optometry. She is also in private practice at ProCare Vision Centers in Granville, OH. She graduated with a Master of Science in Vision Science and Doctor of Optometry degrees from The Ohio State University. While attending optometry school, she was awarded the National Eye Institute T35 research grant. Her master's degree research focused on children's visual performance objectively and subjectively with soft multifocal contact lenses. She completed a cornea and contact lens fellowship at the University of Houston College of Optometry. Dr. Bickle continues to be involved with clinical studies.

**Richard A. Erdey, MD**

Dr. Erdey is a board certified cataract, corneal and refractive specialist. His training included an ophthalmology residency at North Shore Cornell Medical Center in New York where he was chief resident. During his Cornea Fellowship at The Ohio State University, he participated in the first Excimer PTK trials and subsequently co-directed the Cornea Research Laboratory at The University of Rochester where early clinical VISX PRK trials were conducted. He returned to Columbus in 1992, and is the founding partner and Medical Director at both the Erdey Searcy Eye Group and East Columbus Surgery Center. Dr Erdey was a clinical investigator for the Visian Implantable Contact Lens (ICL) and his patient was the first in Ohio to have this implant in 1998. He is a champion of targeted cornea transplantation and as an advisor to Central Ohio Lions Eye Bank helped bring DSEK, DMEK and Large-diameter DALK to Columbus. In 2014, he became the first in Central Ohio to perform Dropleas cataract surgery which has rapidly become the standard in his practice. Dr. Erdey has published numerous articles and lectures extensively.

**Gregory D. Searcy, MD**

Dr. Searcy is a board certified ophthalmologist practicing at the Erdey Searcy Eye Group in Columbus. He is also a Clinical Assistant Professor at The Ohio State University. Dr. Searcy graduated with a doctor of medicine degree from The Ohio State University. He was a resident and chief resident at the St. Francis Medical Center Department of Ophthalmology in Pittsburgh. Dr. Searcy lectures extensively and has been involved in numerous clinical studies.

**Daryl D. Kaswinkel, MD**

Dr. Kaswinkel is a board certified cornea, external disease, uveitis, refractive and glaucoma surgery specialist practicing at the Erdey Searcy Eye Group (Columbus and Newark-Granville locations). He received his doctor of medicine degree and his ophthalmology residency at the University of Tennessee and his fellowship training at the University of Louisville. He has extensive experience in bladeless LASIK, Cornea Transplantation (DALK, DSEK, DMEK) and Glaucoma shunts.

**Samuel Gallo, MD**

Dr. Gallo is an Oculoplastic specialist practicing in Columbus and Central Ohio. He completed his Ophthalmology Residency at The Jules Stein Eye Institute at UCLA Medical Center. After a Fellowship in oculoplastics, Ocular Oncology, Orbital Diseases and Orbital Reconstruction at the University of Tennessee in Memphis, he completed an additional year in Oculoplastics, Orbital Diseases and Orbital Reconstruction. He specializes in eyelid, orbital, tear duct and cosmetic facial surgery and uses Botox for functional and cosmetic uses.
